PERMISSION TO TREAT BEES & RELEASE FROM LIABILITY

Permission is granted herewith to Pestgon Incorporated to treat the bee hive(s) located on the property listed below.

I understand that Pestgon will kill the bees; however, if the hive is located in the interior of a wall, ceiling, or other void, it will be necessary to have the remains (whether honey, wax, or other organic material) removed in order to prevent this material from staining, leaking through, or from attracting other insects, bees or animals. I understand that Pestgon is not performing this removal and that it will be necessary for me to contract with another company if I decide to extract the hive. If I elect to not extract the hive, Pestgon will have no responsibility or liability with regard to the remains.
